Library Statistics
Fiscal Year 1989-90

A statutory requirement of the New Mexico State Library is the collection and reporting of data from all libraries in the state. The statistics in this document were obtained from the 1989-90 annual reports received from public, community, and institutional libraries. Academic library statistics were provided by Ed Dowlin, Director of Libraries, ENMU. Statistics for special and school libraries are not available for the 1989-90 year. It is our intention to include statistics on school and special libraries in the next edition. State Library program statistics are also included.

Thanks go to the librarians who took the time to complete the reports and to submit comments.

When interpreting the data in this report for public and community libraries, it should be noted that population numbers were updated to preliminary figures for the 1990 census. 1990 numbers are not yet available for El Rito, Truchas, and Thoreau so the latest available figures were used. Per capita calculations are based on these estimates.

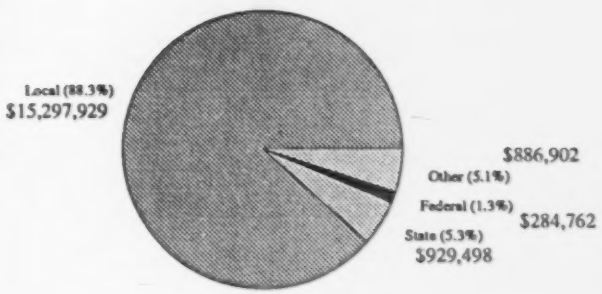
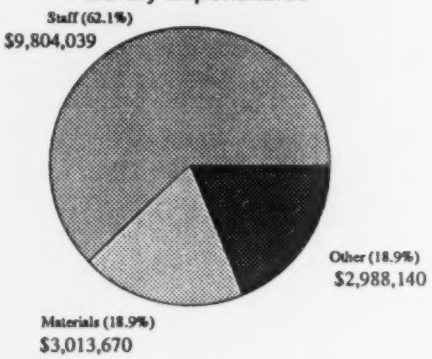
FACTS ABOUT LIBRARIES IN NEW MEXICO
PUBLIC & COMMUNITY LIBRARIES - FY 1989/90

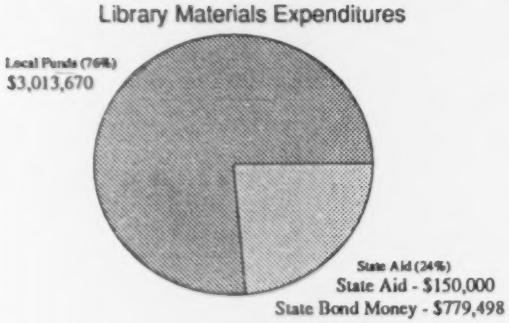
Library Funding



Library Expenditures



Library Materials Expenditures



According to the 1990 census, 1.2 million persons of New Mexico's approximate 1.5 million population live in the 66 communities served by public and community libraries. 718,836 of this group are registered library users.

The 66 libraries located in communities across the state have combined holdings of 3.7 million items in their collections. Collectively, 271,889 items were added to the information\ recreation resource pool in 1989/90. This was done for a cost of about $3.9 million, or about $14.50 per item. As the chart above indicates, state aid represents 24 percent of the library materials budget for public and community libraries. Usually state aid is about 5 percent, but this higher figure reflects the one-time infusion of bond money in l989-1991.

Four New Mexico State Library bookmobiles serve 7,206 registered borrowers in 164 communities in 31 counties. A total of 57,349 volumes comprise the four bookmobile collections. These mobile units circulated over 170,000 volumes in 1989/90. The bookmobiles are funded through the federal Library Services & Construction Act Title I, with materials revenues from community and county contributions.
